# ABOUT AMAR

---

Online Islamic education has grown rapidly, yet much of it remains shaped by methodology that doesn't stick and rigid structures. While access has increased, depth, continuity, and meaningful engagement have often been diminished. At Rahmaniyyah, we have sought to establish an approach to learning that is principled, rigorous, and rooted in transmission.

Our programmes are grounded in direct, teacher-led knowledge-First study and connected through Is-nad, ensuring continuity, responsibility, and academic integrity. Education at Rahmaniyyah is not reduced to the completion of modules or the passive consumption of content. Rather, it is centred on serious study that cultivates understanding, frequently connecting with the Teachers and practical application.

Students are supported by teachers who take an active interest in their intellectual and personal development.

Rahmaniyyah exists to reconnect students with knowledge that informs practice and shapes character, encouraging thoughtful engagement with the Islamic tradition and its application in contemporary life.

# WHY AMAR?

Effective education requires more than access to information. Structured learning depends upon systematic instruction, academic supervision, and sustained engagement with qualified teachers.

Contemporary modes of online learning have increased the availability of educational material, yet they often operate without consistent oversight or continuity in instruction. As a result, students may acquire familiarity with subject matter without the benefit of guided study or recognised scholarly transmission.

Rahmaniyyah addresses this through an educational model centred on direct, teacher-led instruction. Learning is organised around regular classes, academic progression, and continuity between teacher and student, ensuring that knowledge is studied within an established framework.

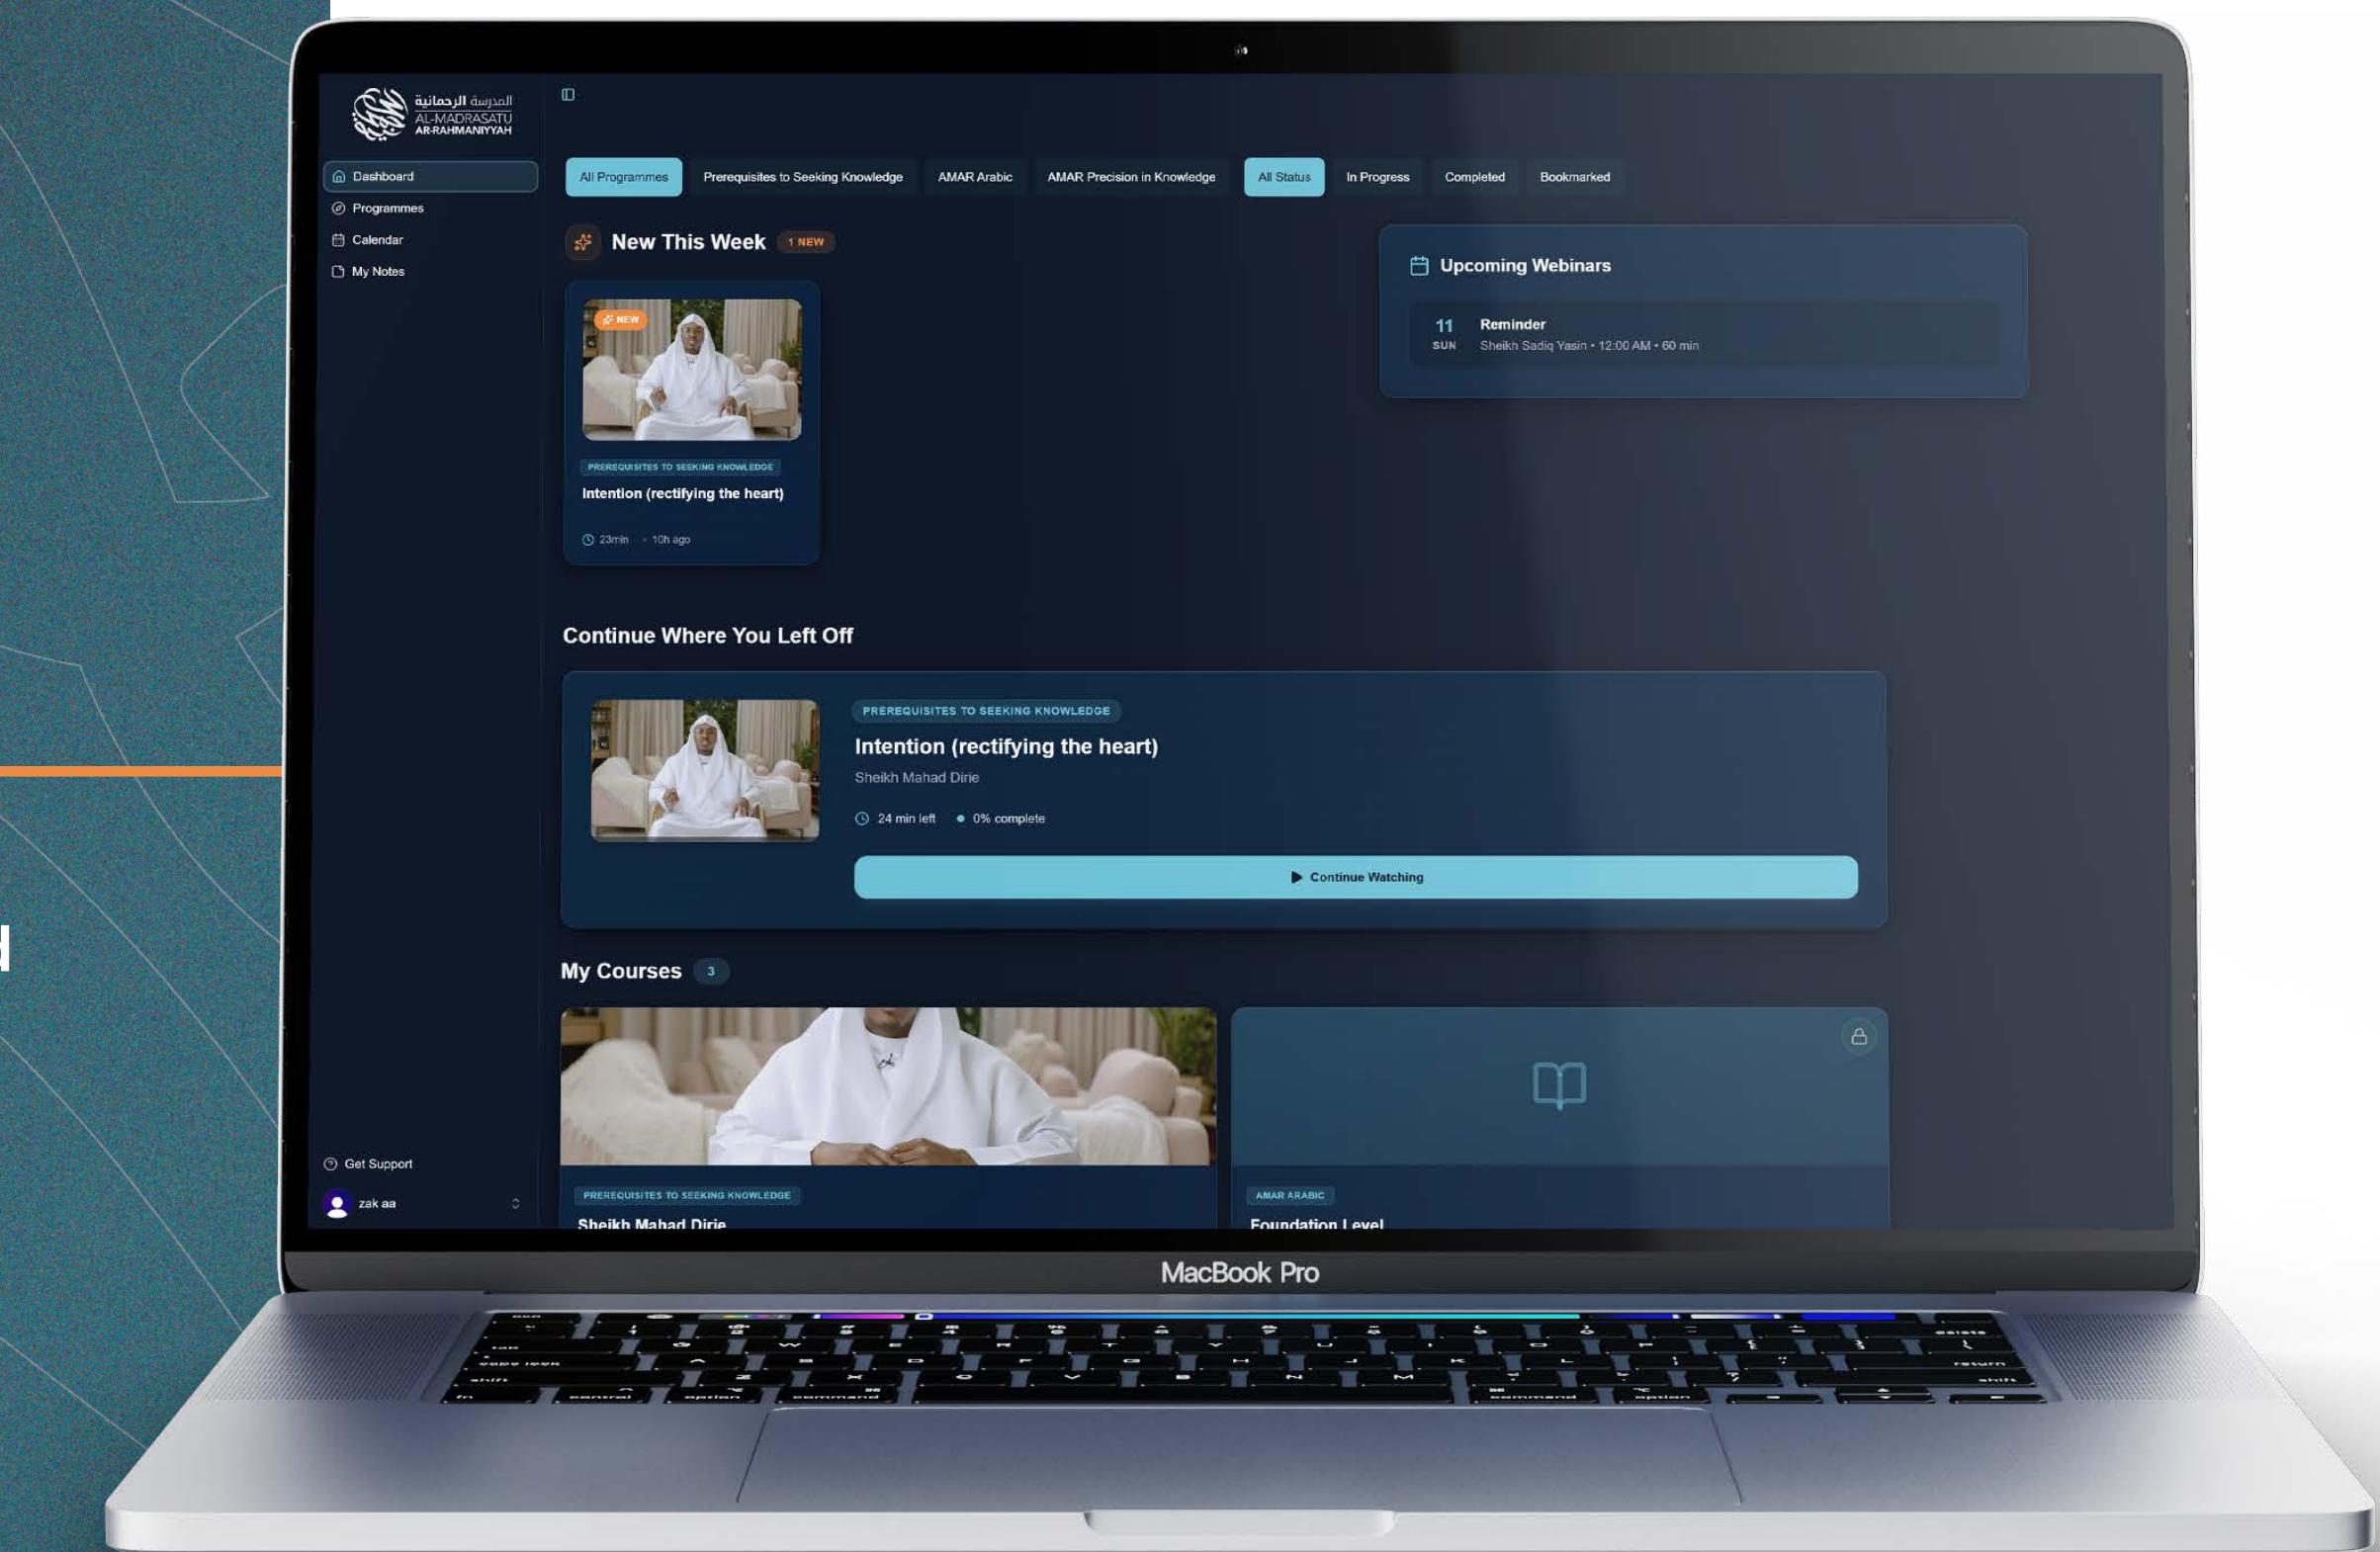

Rahmaniyyah places emphasis on disciplined study, academic responsibility, and attentiveness to instruction. Students are supported in developing the intellectual habits required for serious engagement with the Islamic sciences, under the guidance of teachers responsible for both instruction and academic oversight.

# WHAT MAKES AMAR DIFFERENT?

**STRUCTURED STUDY.  
SCHOLARLY CONTINUITY.**

Al-Madrasatu ar-Rahmaniyyah provides Islamic education through a structured, teacher-led model. Instruction is delivered via recorded lessons developed from formal teaching, ensuring clarity, consistency, and academic oversight.

Students engage with their studies under guided instruction rather than independent content consumption. Learning is organised within defined cohorts to support progression, accountability, and continuity.

# WHAT MAKES PRECISION IN KNOWLEDGE UNIQUE?

At Al-Madrasatu ar-Rahmaniyyah, learning is treated as a serious and guided process, not simply the collection of information. Students are taught to study with care, consistency, and respect for the knowledge they are learning.

Our approach supports clear understanding, disciplined study, and good scholarly conduct. Alongside learning the material, students are encouraged to develop focus, responsibility, and sound study habits.

Rahmaniyyah aims to prepare students who are able to continue their studies, teach others, or apply their learning with confidence and purpose.

# CLASSICAL CURRICULUM. CONTEMPORARY ACCESS.

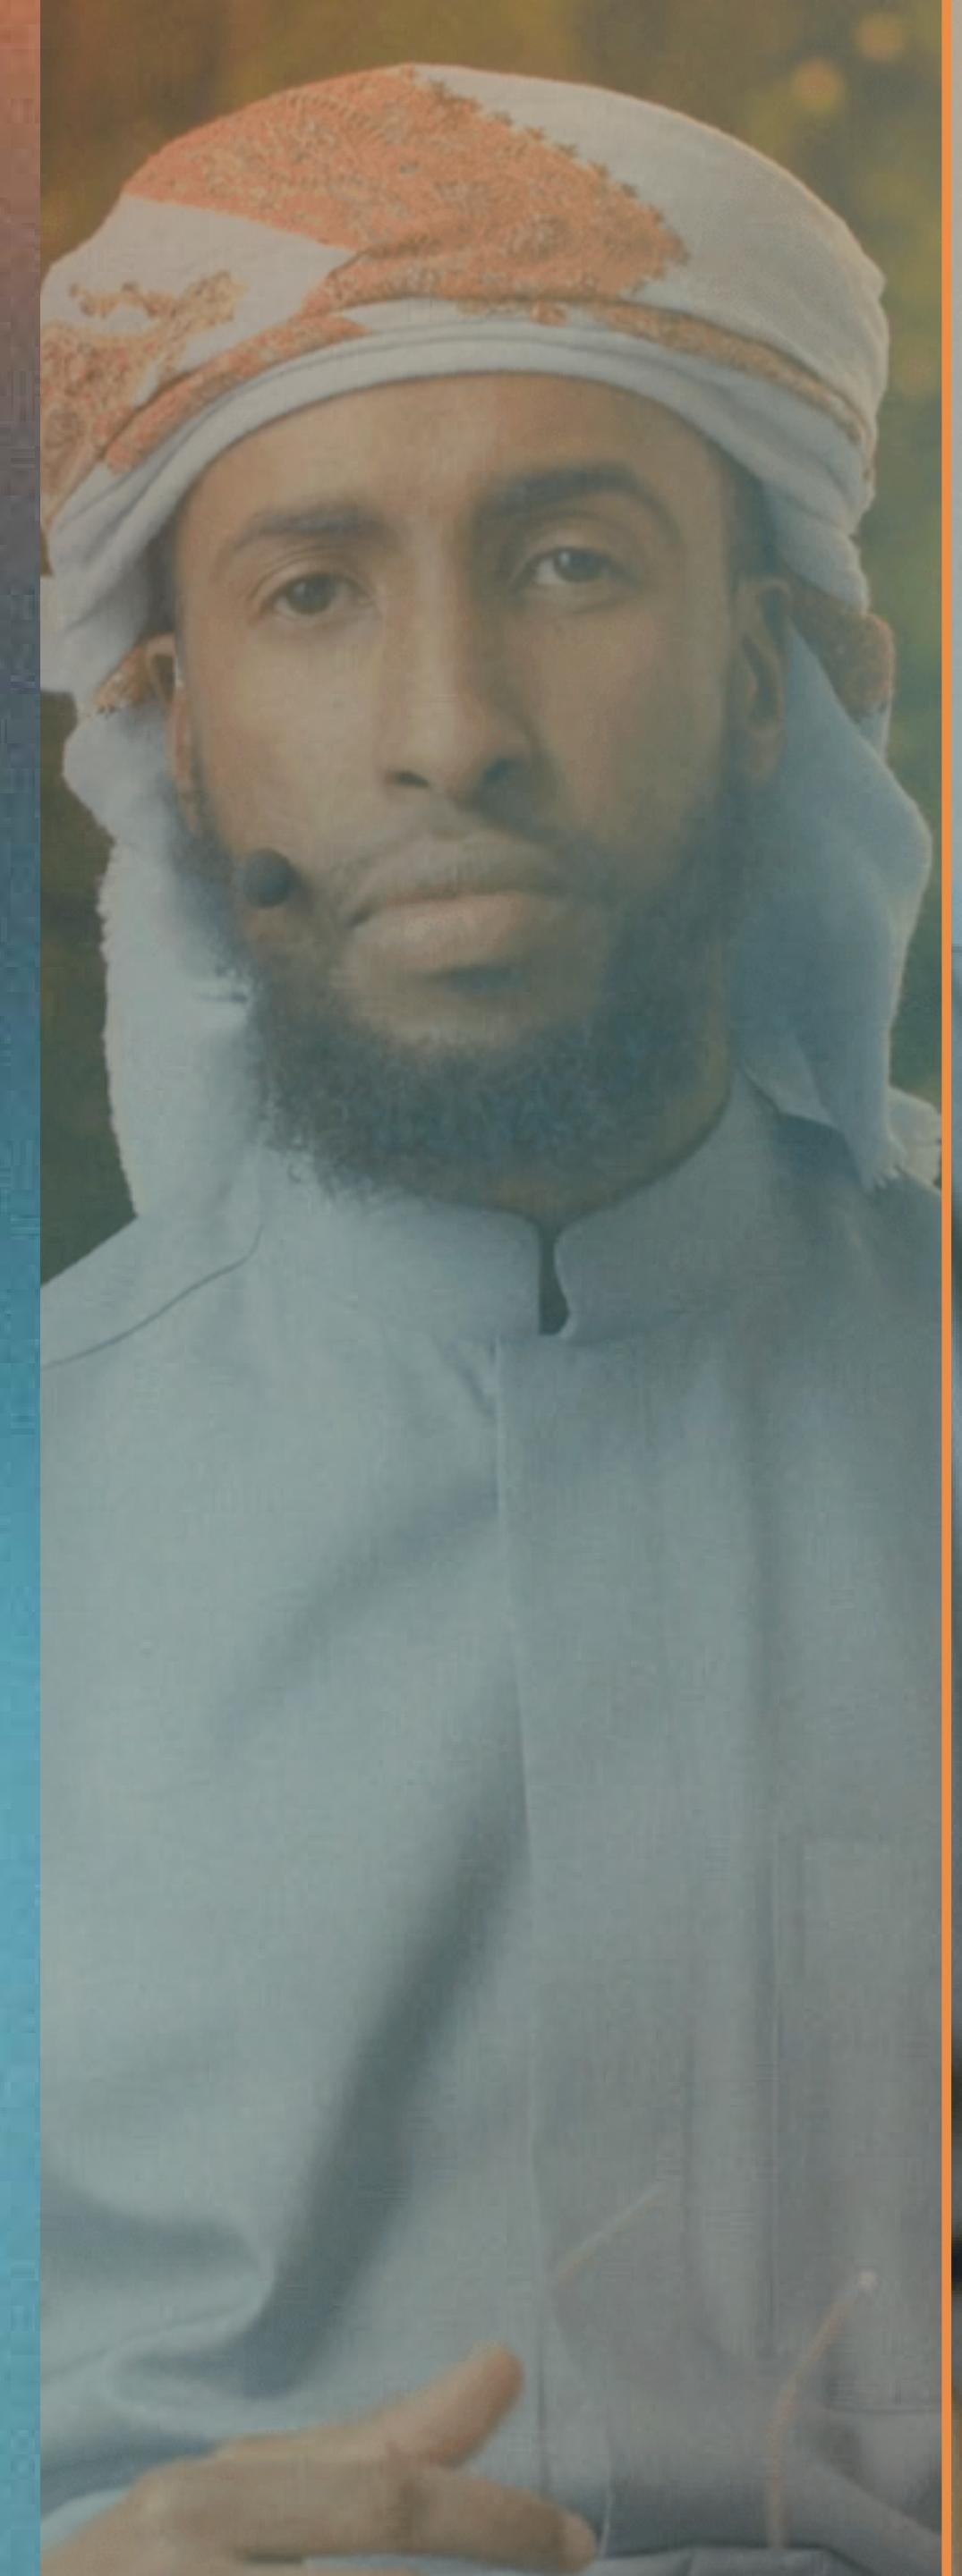

---

The curriculum is grounded in the classical texts of the Islamic sciences, studied systematically and explained with precision and context. Instruction follows established scholarly methods rather than condensed or simplified approaches.

Rahmaniyyah presents this tradition through an accessible and organised framework, enabling rigorous engagement with classical scholarship through modern modes of delivery.

# MEET THE TEACHERS.

# USTADH ABDULRAHMAN HASSEN

Raised between the East and the West, Ustadh AbdulRahman Hassen brings together deep classical knowledge and a keen understanding of modern challenges.

By the permission of Allah, he memorized the Qur'an and many classical texts by the age of 10, then went on to pursue formal Islamic studies in Saudi Arabia, Egypt, and Somalia.

He studied under the major scholars of our time, the likes of Sheikh Salih al-Fawzan, Sheikh AbdulRazaq al-Badr, Sheikh Sulayman al-Ruhayli and many others.

For years, he has taught, researched, and mentored students across the globe, guiding them to move beyond mere information toward true transformation.

**"A teacher's role isn't to fill your mind — it's to show you the path."**

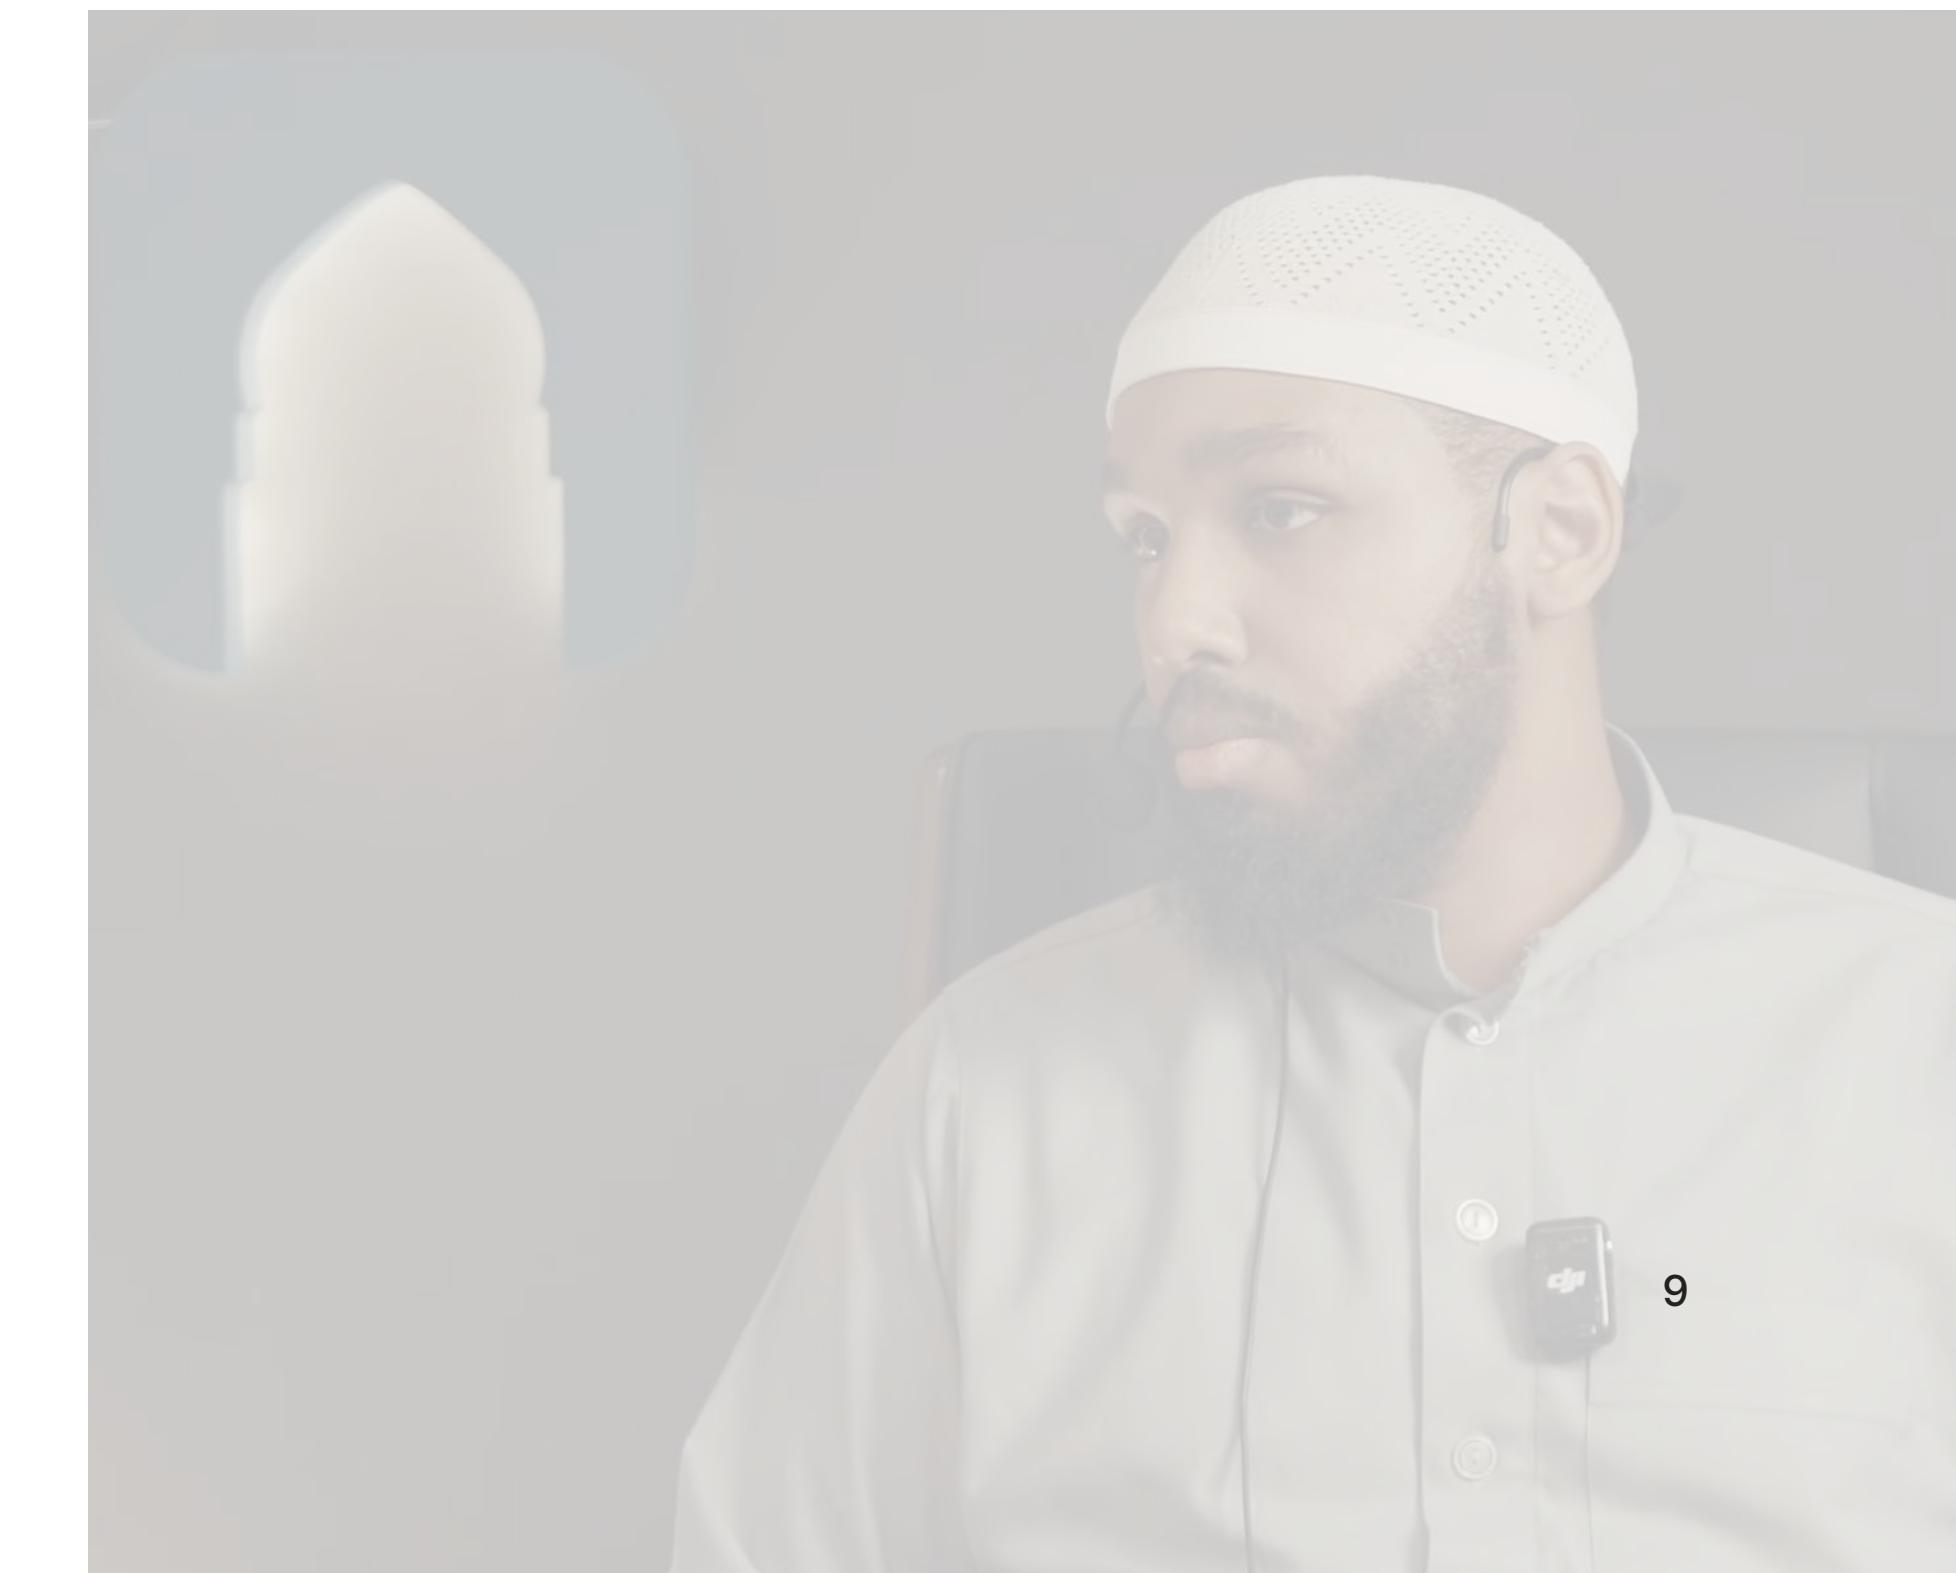

# USTADH SADIQ YASIN

**Ustadh Sadiq Yasin is a PhD candidate at the Islamic University of Madinah.**

**He holds a Master's in 'Aqidah and a Bachelor's in Hadith, and is known for his thorough research and deep understanding across the Islamic sciences.**

**His academic strength and clarity in explanation have made him a respected voice among students of knowledge.**

## USTADH MAHAD DIRIE

Ustadh Mahad Dirie began seeking Islamic knowledge during his early teens at his local masjid, studying the foundational Islamic sciences under local teachers.

At the age of eighteen, he was accepted into the Islamic University of Madinah, where he spent close to ten years engaged in full-time study, and completed the requirements for a bachelor's degree.

After completing his studies, he spent two years serving as an imam at his local mosque, leading prayers and teaching selected classical texts.

# THE PRECISION IN KNOWLEDGE PROGRAM

The Precision in Knowledge Programme is a structured curriculum comprising several faculties, with each faculty following a five-year programme of study, carefully sequenced to cultivate clarity, depth, and intellectual maturity.

The curriculum spans seven faculties, beginning with 'Aqīdah and progressing through the core sciences to advanced study of the Qur'an.

## PROGRAMME DETAILS:

**TITLE: PRECISION IN KNOWLEDGE**

**FACULTIES: 7**

**DURATION: 5 YEARS**

At Al-Madrasatu ar-Rahmaniyyah, the focus is on steady, meaningful progress, building a solid foundation for study, teaching, and informed religious practice.

# PROGRAM STRUCTURE

## INTEGRATED AREAS:

The programme integrates multiple sciences within each faculty, allowing students to study them in parallel and develop a cohesive understanding of the subject.

## Q&A SESSIONS:

Regular opportunities to engage directly with your teacher and clarify every question and uncertainty.

## BREAKOUT GROUPS:

Students engage in supervised small-group sessions led by teachers, where peer learning, critical thinking, and rigorous research-driven discussion are central.

## OUR GOAL IS SIMPLE

The programme aims to firmly anchor students in the Islamic scholarly tradition through isnād and formal ijāzah, prioritising depth, continuity, and responsible transmission over speed or volume.

# WHO IS PRECISION OF KNOWLEDGE FOR?

**AMAR IS FOR ANYONE WHO WANTS TO:**

01

Study Islamic knowledge in a structured, classical manner with teacher oversight

02

Build a strong and systematic foundation across the core Islamic sciences

03

Learn with clarity and discipline rather than through fragmented or self-directed study

04

Commit to long-term, steady progress rather than short-term or accelerated courses

05

Prepare themselves for further study, teaching, or informed practice of Islam

AL-MADRASATU  
**AR-RAHMANIYYAH**

المدرسة الرحمانية

AMAR offers structured access to traditional Islamic knowledge rooted in recognised scholarly transmission and guided study.

The institution provides a clear pathway for students seeking sustained engagement with the Islamic sciences.

This is not simply an online platform, but a programme of study designed to support long-term learning, academic development, and scholarly progression.
